PROJECTS

Personal Portfolio Website **Mar 2026**

- It shows my profession details like education,skills, experience and project etc.
- In which the technologies are used like HTML, CSS Javascript and Bootstrap
- Github- GitHub_Repo_Port
- Live- https://portfoliomohdabdul.netlify.app

Valet Parking Management System **May 2026**

- In this I have used React.js, Bootstrap, Typescript JavaScript,CSS etc. and manage the versions using version control system e.g. Git and GitHub.
- In this ,it is having 3 panels as Valet, Costumer and Admin through which manage all the services related parking.
- Github- GitHub_Repo_VPMS
- Live- https://valetparkingmanegementsystem.netlify.app/

Employee Management System **Oct 2026**

· Developed a responsive employee management application using React.js, JavaScript and Bootstrap.
· Used Firebase as the backend for employee data management and real-time data handling.

EDUCATION

B.Tech. (Computer Science) **Jul 2022 - Jun 2026**
Dr. APJ Abdul Kalam Technical University
Final **CGPA-6.8**

Intermediate (PCM) **May 2021 - Jun 2022**
SD Inter College -(**75%**)

Highschool **Mar 2019 - Jun 2020**
C R K Inter College -(**81%**)

ADDITIONAL INFORMATION

- **Languages:** English, Hindi
- **Certifications:** Master Class on Git & GitHub - ***Physics Wallah (Mar 2025)***
  Javascript for beginners - ***Simplilearn (Dec 2024)***
